Subject: RE: Formal Request for Office Space

Colin

So that we can ensure timely resolution of this issue, I'm providing a summary of our conversation regarding office space and equipment, as requested.

1. An office has been configured to accommodate you and Chet Goree. The office has two work spaces.
2. Mr. Goree's supervisor reports that he is in the building one day per pay period, and you mentioned that he typically conducts his national Union duties either in the morning or the afternoon (i.e., on a relatively structured schedule).
3. Separate office space is not available; as mentioned, we have division-level managers sharing offices due to space constraints. If there is some business reason which would preclude you and Mr. Goree from sharing the space, particularly in light on Mr. Goree's reported limited use of the space, please provide in writing so we can evaluate.
4. Telephones and printers / MFDs are being installed for both work spaces. If a cell phone is needed, AFGE will need to provide for you or provide some other written documentation, as cell phone issuance is limited to a prescribed list of personnel / positions.
5. A docking station will be provided to accommodate your VA-issued laptop. If there is a business need for an additional device (i.e, an additional laptop or desk top) written documentation will be needed, as IT policy prescribes one device per person.

If you have questions, please let me know.

Thank you

Kim A. Graves
Director
VA Regional Office
St. Paul, MN
